DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: clips "22". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The abstract of the disclosure is objected to because line 1 recites the phrase "The invention relates to" which can be implied and removed; and line 2 recite the term "Said" which is a legal term and should be changed. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 102

Art Unit: 3618

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5 and 14-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Crow et al. (US 6,161,810 A).

Crow et al. discloses a battery device comprising a carrier plate 94, fixing bracket 102, and a fixing element 14 with hinge 106, 108, wherein said element engages a projecting step (not numbered) of a battery housing 84 and an undercut or catch 104 of the bracket, as shown in figures 5-7.

Allowable Subject Matter

5. Claims 6-13 and 17-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
